

Learn More at AboutPFO.com

Talk with your doctor and watch these educational videos to learn more about closing the hole in your heart to help reduce the risk of another stroke.

Learn basics about cryptogenic stroke, PFOs and the therapy that may reduce your chance of another stroke.

Watch an animation of how a blood clot can pass through a PFO and how this may cause a stroke.

See how GORE® CARDIOFORM Septal Occluder is used during the PFO closure procedure.

Watch the real-life story of how Kathryn, who underwent a PFO closure, moved her life forward after a stroke.

It is important to speak with your doctor about the potential benefits and risks of PFO closure.

Learn more at AboutPFO.com and ask your doctor if PFO closure is right for you.

INDICATIONS FOR USE IN THE U.S.: The GORE® CARDIOFORM Septal Occluder is a permanently implanted device indicated for the percutaneous, transcatheter closure of the following defects of the atrial septum: ostium secundum atrial septal defects (ASDs); patent foramen ovale (PFO) to reduce the risk of recurrent ischemic stroke in patients, predominantly between the ages of 18 and 60 years, who have had a cryptogenic stroke due to a presumed paradoxical embolism, as determined by a neurologist and cardiologist following an evaluation to exclude known causes of ischemic stroke. **CONTRAINDICATIONS:** The GORE® CARDIOFORM Septal Occluder is contraindicated for use in patients: unable to take antiplatelet or anticoagulant medications such as aspirin, heparin or warfarin; with anatomy where the GORE® CARDIOFORM Septal Occluder size or position would interfere with other intracardiac or intravascular structures, such as cardiac valves or pulmonary veins; with active endocarditis, or other infections producing bacteremia, or patients with known sepsis within one month of planned implantation, or any other infection that cannot be treated successfully prior to device placement; with known intracardiac thrombi. Refer to *Instructions for Use* at goremedical.com for a complete description of all warnings, precautions and adverse events. ^{Rx only}

This information is intended for education and awareness only. Patients should consult their physician for information on the risks associated with the devices and surgical procedures discussed in this document. All surgical procedures carry potential health risks. Not all patients will be candidates for treatment with these devices, and individual outcomes may vary.

Always follow physician advice on your post-surgery care and recovery.

Caution: U.S. law restricts use of this device on the order of a physician (Rx).

Products listed may not be available in all markets.
