

Experience new levels of control

GORE® TAG® Conformable Thoracic
Stent Graft with ACTIVE CONTROL System

Now with reduced profiles

Combining the precise control of an intuitive delivery system with the exceptional conformability of the Conformable GORE® TAG® Thoracic Endoprosthesis, clinicians can achieve predictable patient outcomes.

- Staged deployment enables refinement of placement and angulation
- Optional angulation control at intermediate and full diameter
- Hemodynamic stability throughout the deployment
- Reduced profiles on 10 device sizes, with no changes to the stent graft itself

GORE® TAG® Conformable Thoracic Stent Graft with ACTIVE CONTROL System
