GORE® DUALMESH® Biomaterial is a soft, conformable, ePTFE material.

- More than 150 peer-reviewed scientific articles published since 1996
- Long-term performance
- Gore proprietary ePTFE minimizes tissue attachment to the smooth visceral surface side and offers a compliant and soft material

Performance = Reliability in Laparoscopic Ventral Hernia Repair

Recurrence Rate 4.0%
Infection 1.1%
Fistula 0.0%
Erosion 0.0%
Seroma 4.7%
Ileus 2.3%

Literature Summary
N = 3756 patients
