

Designed to Deliver

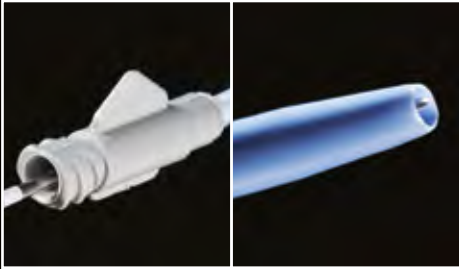

Advanced accessories exclusively
tailored for TIPS procedures.

PERFORMANCE
by design

GORE TIPS Needle

Status band confirms
needle tip protection

Only the GORE TIPS Needle features a status band that when visible confirms that the needle tip is covered.

Stiff 16 Gauge needle provides
responsive needle torque control

Sharp needle tip aids
precise needle puncture

Ergonomic handle enhances
grip and needle control

Direction indicators verify
component alignment during device
preparation and initial insertion

NEEDLE

GORE® TIPS Sheath

Interlocking feature secures dilator hub and 10 Fr introducer sheath during advancement

Direction indicators verify component alignment during device preparation and initial insertion

Transparent tapered hub provides clear view of access sleeve and device delivery catheter

TIPS
SHEATH

The GORE TIPS Set consists of the GORE® TIPS Sheath and the GORE TIPS Needle, which may be supplied together or individually.

The GORE® TIPS Sheath consists of a flexible 10 Fr introducer sheath with a hemostatic valve and a 10 Fr dilator.

The GORE TIPS Needle consists of a high-strength, stiff 16 Gauge stainless steel hollow shaft needle and 10 Fr guiding catheter.
