

# GORE® VIABAHN® VBX Balloon Expandable Endoprosthesis

**Flexible Strength. Proven Success.**

BALLOON EXPANDABLE  
ENDOPROSTHESIS

# 100% RESTORATION OF LUMEN DIAMETER

Before

After

≤ 30% residual stenosis due to high radial strength, even in highly calcified and non-compliant lesions\*

**Flexible Strength. Proven Success.**

# 100% STENT DELIVERY

- 100% delivery to target lesion
- 100% stent retention
- 100% deployment at the target site
- 234 devices delivered
  - 50% bilateral treatment
  - 42% kissing stents
  - 32% TASC II C & D including occlusions
  - 18% contralateral deliveries
  - predilatation not required

# 96.9% PRIMARY PATENCY

95.3% Primary Patency in  
TASC II C & D lesions

**Flexible Strength. Proven Success.**

## Procedural economic value

GORE® VIABAHN® VBX Balloon Expandable Endoprosthesis (VBX Stent Graft) delivers an estimated savings of \$1,124 / case\*\*

- 79 mm length reduces the number of devices needed in certain instances
- Not required to pre-dilate with the VBX Stent Graft
- Reliable delivery with no device dislodgements
- Accurate delivery helps avoid stent foreshortening and elongation

## Advanced technology and unique design

### Stainless steel independent rings enhance flexibility

- Minimizes foreshortening
- Provides high radial strength

### Semi-compliant covered balloon

- Enables diameter customization
- Improves device retention and trackability in torturous anatomies

### CBAS Heparin Surface for lasting thromboresistance

### Expanded range of diameters and lengths

### Proven leader with 20 years of peripheral stent graft clinical experience

- Employs the covered stent technology of GORE® VIABAHN® Endoprosthesis

**Flexible Strength. Proven Success.**
