Durable outcomes.
Proven performance.

GORE® EXCLUDER®
AAA Endoprosthesis

GORE® EXCLUDER® Iliac
Branch Endoprosthesis
GORE® EXCLUDER® AAA Endoprosthesis

The most-studied* EVAR stent graft designed for durable outcomes.

The trusted performance of the GORE® EXCLUDER® Device is paired with the intuitive GORE® C3® Delivery System to provide optimal infrarenal seal and reliable results, even in more challenging anatomies.

Proven Performance.
Results from the Global Registry for Endovascular Aortic Treatment (GREAT)

3,274 Patients through 5 years of follow-up†
94.7% Freedom from device-related reintervention
0.0%† Migration
1.6% Type I endoleak
0.2% Type III endoleak
0.7% Limb occlusion

GORE® C3® Delivery System

- Repositionable to obtain optimal seal
- Unique ability to reconstrain the proximal end and reposition for ideal placement
- More opportunities to maximize infrarenal seal
We designed this all-in-one system exclusively for use in the iliac arteries. It is the only FDA-approved, off-the-shelf iliac branch solution.

**Preservation matters:**
Recommended treatment\(^1,2\) to sustain quality of life

**Performs as promised:**
High patency\(^3\), conformability, and durability

- Pre-cannulated internal iliac gate and bi-femoral delivery for ease-of-use
- Low profile (16 Fr) delivery for enhanced vessel access and trackability
- Two-staged repositionable deployment for precise placement of the iliac component

---

**3-year data**

- **98.3%** Freedom from CIAA enlargement (> 5 mm)
- **95.1%** Patency — Internal iliac artery
- **93.7%** Freedom from reintervention
- **0%** Buttock claudication
- **0%** New onset erectile dysfunction
- **100%** Patency — External iliac artery

---

**Technical success\(^4\)**

- **152 minutes** Procedure time
- **114 ml** Contrast used
- **95.2%** Technical success\(^4\)
- **40 minutes** Fluoro time
The GORE® EXCLUDER® Device family has evolved based on what we have learned from over 20 years of experience in EVAR.

**Worldwide experience**
- More than 350,000 patients treated with GORE® EXCLUDER® AAA Endoprosthesis
- More than 15,000 GORE® EXCLUDER® Iliac Branch Endoprosthesis devices implanted

**Durability**
1. **Sutureless construction**
   - Expanded PTFE graft technology on luminal and abluminal surfaces
2. **Advanced sinusoidal stent design**
   - Enhances flexibility and long-term conformability
3. **Proprietary ePTFE film layers**
   - Low permeability with abrasion-resistant properties
   - Conformability in tortuous anatomies
4. **Sealing cuff**
   - Engineered to provide security against endoleaks
5. **Active infrarenal fixation**
   - Anchors for active fixation are engineered to provide migration resistance
Physician collaboration and unwavering commitment.

When we join with our partners in the medical community, we work together to advance patient care. With the only FDA-approved iliac branch solution, and durable outcomes with more than 20 years of EVAR experience, the GORE® EXCLUDER® Device family offers solutions physicians trust and patients count on.
